

KOFAB's Trough Conveyor features positive drive conveyor belting technology with the most open frame design in the industry. With its cantilevered design option, belt removal is quick and easy allowing for ease of clean-up and/or belt maintenance.

Whether running as an incline or horizontal, center- or end-driven, and with pneumatic or manual quick-release take-ups, KOFAB's Trough Conveyor can be easily customized to fit precise applications.
